Ice Maker

Measures and Content		
Gross / Net Weight	kg	39 / 33.4
Capacity In Ice Container	kg	8
Capacity Ice Production	kg/24h	26
Size of Ice Cubes	mm	31 x 35 x 31 (18g)
Water Consumption	l/24h	100.8
Design and Material		
Exterior Finish		SS304
Feet / Legs		4 adjustable feet and legs
Cooling and Functions		
Refrigerant		R290
Refrigerant Charge	g	66
Power and Consumption		
Max Ambient		+40°C, 40% RH
Power		13 Amp
Input Power	W	350
Voltage / Frequency	V/Hz	220-240/50
Dimensions		
External Dimension (WxDxH)	mm	390 x 515 x 735
Packed Dimension (WxDxH)	mm	450 x 575 x 710
40ft Container Load	pcs	368

Product Features

- Cubed ice approx. 31x35x31mm
- Production Capacity: 26 kg/24 h
- Storage Capacity: 8 kg
- Low energy air-cooled system
- Spray system produces individual clear ice cubes
- Self-contained ice machine with storage
- Ag+ easy to clean surfaces in the storage bin
- High quality catering grade 304 stainless steel
- 4 Legs and 4 adjustable feet included
- Scoop for ice cubes included
- Built-in silent operating magnetic water pump
- Waste water drain pump for safe water drainage

Ice Machine Making Individual Clear Ice Cubes

The TC range of ice makers uses a spray system to produce individual, clear, slow melting ice cubes. The unit is manufactured using 304 grade stainless steel, with the door at the front of the unit allowing quick access to an insulated storage bin featuring Ag+ antibacterial technology which helps prevent the formation of bacteria and odours. To ensure that the ice maker runs efficiently, the unit has an air filter that is easy to remove and clean. In addition to adjustable legs, the unit also includes small adjustable feet meaning the height can be lowered by 68.5mm if required. The TC range is ideal for use in cafes, restaurants, pubs, bars, fast-food venues, and other hospitality establishments that require cubed ice for drinks or other purposes.

Easy to clean condenser filter
