Multideck with shutter

### Product Features

- Ideal for impulse buys and promotions
- Lockable security shutter
- Ventilated cooling
- Adjustable shelves
- Fully automatic
- Castors with brake
- Digital controller and temperature display
- Ticket strip included

Stainless steel multidecks with lockable security shutter

The TEFCOLD MCX Range is an open front stainless steel multideck, ideal for grab and go and impulse purchases. It can be set to temperature suitable for drink, dairy or fresh meat to suit your requirements. The MCX also benefits from a rigid lockable security shutter to prevent access to product when food is not being served, it is also supplied on lockable castors to allow movement of the cabinet. This allows the unit to be more versatile as to where it can be utilised to maximise sales.

The MCX Range is the perfect solution for a wide range of establishments such as cafeterias, hotels, schools, colleges, and university canteens. It caters to the need for a refrigerated multideck during service while also prioritising product security during non-service periods. This feature becomes especially valuable in environments where customers, staff, or students may still have access to the unit.
