Sandwich Preparation Counter

Product Features
- Stainless steel
- Cooling well for GN1/3 pans (not included)
- Ventilated cooling
- Optimized airflow for stable temperature
- Automatic defrost
- Self-closing doors
- Adjustable legs

Stainless steel counter with cooling well for GN1/3 pans

The SS sandwich preparation counter is the perfect choice for professional kitchens wanting to keep ingredients fresh and easily accessible. Despite the name, the unit is suitable for much more than sandwich preparation.

With the elevated structure of the built-in cooling well, there is plenty of space for GN1/3 pans without losing any of the cabinet storage space, and you still have a worktop as well. The unit comes with doors and GN1/1 shelves as standard, but you can also choose drawers as an option. Please note that drawers cannot be installed in the right-hand door next to the compressor compartment, as this would block the airflow.

The SS sandwich preparation counter is made from durable SS304 stainless steel and has ventilated cooling for maintaining a stable temperature. Please note that the unit has a ventilation box on the right side, but no extra space is required for the airflow to work properly.

Measures and Content		
Gross / Net Weight	kg	201 / 191
Net Volume	l	497
Gross Volume	l	520
Gross / Net Volume	l	520 / 497
