

## SCL-X22

High-end Neutral Backbar

### Product Features

- Ambient temperature
- Skinplate exterior/interior
- Adjustable plate shelves
- Adjustable legs
- Optional lock

Neutral non-refrigerated backbar

This neutral or non-refrigerated backbar with two solid doors can be placed to the left side of the SCL Combi-Line backbar cabinet, enabling the completion of your bar setup in a professional and efficient way. It comes with two shelves per door and offers the same stylish exterior as the rest of the SCL Combi-Line products from Serrco.

The non-refrigerated backbar adapts to the ambient temperature of its surroundings and is ideal for storing coffee, cups, straws, or whatever you need within easy reach that doesn't need to be chilled. As the cabinet is often installed below a sink, it has a hole in the top for easy installation.

As an alternative to the door and two shelves, we also offer a neutral section with a coffee drawer and a solid door (see SCL-DD) as well as a version with a drawer for hiding rubbish out of sight (see SCL-WB).

### Measures and Content

Temperature Range	°C	+2 to +10
Climate Class		4
