

MDCB2500HB

Multideck

Product Features

- Tilting function for better product display
- Can be multiplexed with kit (POA)
- Internal vertical and horizontal LED light
- Stainless steel bumper bars
- Ticket strip and acrylic front riser as standard
- Temperature Class 3M1
- Can be multiplexed - Create uninterrupted continuous line
- Adjustable extra deep shelves to maximise capacity
- Energy saving variable speed compressor
- EU Energy Class B
- Solid 40 mm endwalls with mirrored interior
- Controller with Bluetooth and NFC connectivity

Multideck with deep shelves for maximum capacity

40ft Container Load	pcs	8

Shelf risers and ticket strips

Bluetooth controller

The MDCB multideck chiller offers great product presentation combined with a low-energy and low-noise cooling system. With 600 mm deep shelves and a 650 mm deep base, you get ample storage and display space. Shelves can be tilted to 10° or 20°, and they come with acrylic front risers and ticket strips as standard for optimal product presentation. The shelves fits standard E2 vegetable boxes for easy loading.

Vertical LED lights run down the inside of each wall, which combined with horizontal LED lighting across the top, provide excellent illumination and make the contents stand out.

Multiplexing kits are available as accessories, making it possible to create uninterrupted lines of coolers throughout your store.

The MDCB multideck has temperature class 3M1, ensuring optimal cooling performance for retail settings, and it is suitable for displaying vegetables, dairy products, beverages or packed fresh meat. The cabinet features a digital temperature controller with bluetooth connectivity, making it easy to export data for HACCP compliance.
