

SGD-300E

High-end Storage Chiller

Product Features

- Low energy consumption
- Skinplate exterior/interior
- Ideal for branding
- Reversible solid door
- Adjustable wire shelves
- LED interior light with switch
- Digital controller and temperature display
- Adjustable legs
- Automatic defrost
- Mobile frame available as accessory

Premium low-energy storage chiller

The SGD storage cooler is designed for the hospitality sector and is particularly well-suited for events and shows. It has a sophisticated look with an anthracite exterior and a solid door. The SGD cooler is particularly well-suited for events because it is extremely sturdy. The refrigerated unit is strategically placed below the display compartment for efficient ventilation and protection of delicate components. To improve mobility, a stainless steel trolley with robust wheels is available as an accessory, ensuring safe and easy relocation during events.

In addition to its robust design, the SGD display cooler excels in energy efficiency. Its ventilated cooling system is not only effective in securing the correct temperature, but also results in impressively low energy consumption, making it a great choice for businesses looking to reduce operational costs.

| Measures and Content | | |
