Pedal for opening the door

Digital thermostat

The RK710X1 is an energy-efficient cooler for professional settings. It has a 36% lower energy consumption compared to the previous RK710 model.

This upright cooler is made from durable SS304 stainless steel to ensure that it can withstand the conditions of a busy kitchen. It comes with adjustable GN2/1 shelves and the door has a 105 degree stop for easy access and loading. The door can be opened by stepping on a pedal at the bottom of the cabinet. The cabinet is equipped with strong wheels, which come in handy in terms of cleaning.

It has an efficient ventilated cooling system to ensure that content stays fresh, and the temperature is easy to set on the digital controller. The controller has NFC connectivity and Bluetooth. This means you can keep an eye on the temperature and humidity of the cabinet via an app, and you can export data for easy reporting.
