Pizza table with refrigerated topping unit for GN pans

The PT pizza table is an outstanding choice for pizza makers. Crafted from SS304 stainless steel, this counter is built to last and easy to keep clean. It boasts a granite tabletop, which is ideal for creating flawless pizzas as the granite stays cool, making it harder for the dough to stick to the worktop. The pizza prep table includes convenient features such as automatic defrost for a seamless operation, adjustable feet for stability, and fan-assisted cooling to maintain consistent temperatures. It has GN1/1 cupboards with adjustable shelves, but it is also possible to have it customized with GN drawers if you prefer. This model has a refrigerated topping unit suitable for GN pans (not included), so you can have the most popular pizza toppings conveniently lined up in front of you. The topping unit has a glass front for optimal hygiene.
