Product Features
- Low energy consumption
- Black interior and exterior
- Elegant design
- Great product presentation
- Illuminated canopy
- Ideal for branding
- LED light in door frame
- Adjustable shelves
- Fan assisted cooling
- Lock

Energy-efficient glass door chiller with canopy

Designed to provide a more premium feel to a display fridge, the CEV435CP is the more energy-efficient version of the CEV425CP. It features a black interior and exterior and a light canopy to enable branding. It has the benefit of twin vertical LED lighting (one strip down each side of the interior of the door frame). This provides exceptional lighting to showcase the front of the products, while many cabinets light produce from the side or the top. Excellent for the display of craft beers, ciders, sports and energy drinks setting your display apart from the rest.
