- Ticket strip and acrylic front riser as standard
- Can be multiplexed - Create uninterrupted continuous line
- Heavy duty shelving with strengthening bar
- Frameless glass doors for great product visibility
- EU Energy Class B
- Solid 40 mm endwalls with mirrored interior

The TEFCOLD Galaxy+ FGD (Full Glass Door) range are part of our popular range of plug-in multidecks. We've combined an expanded display area and optimised cabinet efficiency with frameless, full-vision glass doors, offering enhanced product visibility that captures customers' attention. The ultra-low front and slim top canopy provide an extra 100mm of internal height, accommodating up to 5 shelves (plus base) as standard, all while maintaining an overall height of just 2005mm. With a standard depth, the unit fits through most doors for easy installation, yet has deep shelves for maximum stock capacity. Thanks to the carefully designed refrigeration system and optimal airflow throughout the cabinets, all sizes in this range are rated B for energy efficiency. Each unit comes with heavy-duty adjustable shelves that can be tilted if needed, as well as EPOS ticket strips and shelf risers as standard. Optional extras include glass end-walls and multiplexing kits.
