Black display chiller to showcase your products

The SCU1425 is a premium display refrigeration unit that combines quality with cost efficiency. With a taller design than a typical glass door fridge, it offers increased storage capacity and features well-designed interior lighting (3 LED light strips) illuminating products from the front. The sleek black finish enhances product presentation, while the “frameless” glass door creates a seamless display. Equipped with fan-assisted cooling, the unit ensures consistent cooling throughout the cabinet and facilitates faster restocking. Designed to optimise display space, this display cooler is crafted to elevate product visibility and attract attention to the contents within.
