SFK/SCL-MU+ R

Machine Cooling Unit, Right

Product Features
- Removable cooling unit for easy service
- Plug-in solution
- Ventilated cooling

Machine cooling unit for SFK/SCL (right)

The MU machine unit is an efficient plug-in cooling solution. Simply connect it to a socket and you are ready to go. It is suitable for all sizes of the SCL Combi-Line and SFK ranges.

You can remove six bolts and roll out the unit for service. Because of the easy access, service can be done in a matter of minutes instead of hours.
If you have a spare MU cooling unit in store, you can avoid down-time. Simply replace one unit with the other – it's easy and you don't have to be an expert to carry it out. This way, you can request service on Monday morning instead of Saturday at 1am.
