40ft Container Load	pcs	34

Scooping basket option

Curved glass for nice presentation

The IDA scoop ice cream freezer provides a spacious, efficient option for showcasing your ice cream selection. Its simple design coupled with mobility on castors makes it an ideal choice for any ice cream shop or retail environment. You can easily enhance its clean design with custom branding to make the unit distinctive and draw attention to your rich variety of flavours. Equipped with a curved glass sneeze guard and internal LED lighting, the freezer ensures excellent product presentation. Meanwhile sliding lids help conserve energy during non-serving times. Specifically designed for efficiency, this static scoop ice cream freezer is optimised to accommodate baskets suitable for 5-litre plastic tubs, with an additional storage space underneath. These baskets are available as accessories, but note they are intended solely for 5-litre plastic tubs. If you need baskets for Napoli pans or perhaps wish to use the freezer for other frozen foods, other types of baskets are also available as options. Baskets are not included, but are available as accessories.

The IDA range was previously named ISOA - nothing has changed except for the naming.
