

TD500

Two Level Display Freezer

Product Features

- Ideal for optimizing store space
- Great product visibility
- LED interior light with switch

Two level display freezer for optimising display space

Optimise your frozen display with this innovative freezer with two levels. The unit creates an excellent display for frozen product and enables easy selection for customers. The unit is ideal for display of impulse purchases such as ice cream or lollies. The freezer maximises the display area, having 5 baskets with dividers on each level. An internal LED light illuminates the product and the light can be switched off when the store is closed to reduce energy consumption. The unit is ideal for branding to help draw customers to the items for sale inside. There is also an optional light canopy available to increase visibility.
